# MANAGING CONSIGNORS AND CONSIGNEES

1) If you need to use a new Consignor or Consignee to your application it is very important you follow the steps below:

2) In the Consignor box, open the dropdown menu and select, Add New Consignee

3) When the New Consignor box opens you can enter the necessary details. When you have finished, press Submit to save the details. They will automatically be entered in the Consignor field and will also be available in the dropdown list for future applications.

4) Use the same steps for adding a new Consignee.

5) It is **extremely** important that if you need to use a new Consignor or Consignee, you do **not** select and existing Consignor or Consignee and then manually edit it in the box, this will result in false information being sent to your Chamber and may result in your application being rejected.

6) To deactivate a Consignor or Consignee, go to the Data Library page, select Consignors or Consignees.

7) Identify the record you want to disable from the list. There will be a tick box to the left hand side of the record, tick this box and then scroll to the end of the list. Here you will see a drop down list with the options Active and Deactivate. Select the Deactivate option and press Go.
